# Welcome to DelTech

Analysis of the theme

The topic assigned was Interactive Science Laboratory

We made our own new Lab, **which we named** Deltech

We added blogs for them to read and explore

Concept Documentation

We wanted to add our text and images in such a way that users can see it easily and know why its there.

In labs we made it to so that there is pdfs for every experiment we added.

In about section we worked its catchy by its image positioning and text font and animations.

Problem Solving

- As we had many Problem making our own imaginary new laboratory .

- We took help from praxilabs
